My Dear Unwin

I think you are quite right to keep the numbers of the large paper edition down to 250. I shall be quite glad to pay the twenty guineas for the Whistler lithograph, and if he could be induced to making a drawing instead of a lithograph I would still more gladly make it 30. Try to arrange for me. I shall bear the small books in mind and you shall have the Pennell drawings whenever I get home and can find them. They were mislaid when we flitted into our new house.

with kindly regards

faithfully yours

SR Crockett

Please send me to Morley's the other copy of the vellum Stickit which you have SRC.
