September. 3rd 1894  
Dear Mr Sands

Thanks for your letter. I hope you will arrange to have Bog Myrtle and Peat printed by Constable. They are I think a little more expensive though not much but I think so much of format that I should be inclined to give a continued story to whoever would produce it most to my mind. have you seen the addition of Montaine and Apuleius that Blaikie has printed. They are very beautiful. He has a fine original mind like some of the 15th century printers and puts a great deal of himself into his work.

I bought your Hornungs Boss the other day. It is a capital story. I hope that it is doing well. My Sir Uchtred has done amazingly about 15,000 already. You shall have a copy with an autograph as soon as I get home. I have not a single copy in this wild place. Clashdaan is within an hour's walk.

remind me of this

with every good wish

faithfully yours SR Crockett.
