I shall send a copy but I suppose you have one already.

Dear U. I have just seen the Scotsman article. It has first place and does the trick as far as Scotland is concerned. It shd be reprinted at once or quoted in advts specially part about the breeze and the weather, but it is all good and very well written. I got a start when I saw it, but as you sent it I presume it is all right. It does not matter much what other Scottish papers say now. It was a very wise doing of yours to send an advance copy to them.

Ever
