(on top) I am never in town. Mrs Crockett and my boys bring me news of your show window etc.

Dear Brown,

In the summer time you must come and see me at my new house. Else I must get a couple of good fellows to arrange my library – about 35,000 books, have built a new one... I can't buy now except small rarities. You have never got me 'Satan's Invisible world' by the dear Professor of Hydro statics and ghosts – I mean the 1st edition. I thought you could do everything.

[] obliged for the Pennecuiks. It is indeed very interesting. Since I got back on Tuesday nothing has cheered me so much. You are a good fellow to send me it.

Any criminal trial collections Scotch or English are in my way at present

All good greetings

Ever your friend
