My Dear Unwin,

replying to your two letters of 8th and 10th which were waiting for me on my return. I have written to Wiley with regard to the Glasgow painters honorarium (forget his name) so that is all right. The Canadian Stickit and Raiders are admirable throughout as you say, up to your own style. I like the 6th Stickit best of all, it looks very handsome, uniform with the Raiders. I am glad to see you advertising the 4th edition of the Raiders, please send copies when ready. From the reports in the American papers which Macmillan send me I am glad to see that their 3rd edition is doing well over there. Your letter in the Westminster was admirable and to my mind, settled the question. We shall, of course, carefully consider the question of a note at the beginning of Sir Uchtred. Proof of that gentleman has not yet arrived but I shall pass it rapidly when it does come yet. Yes, Lang's mentioned at the Academy dinner would certainly give us a lift. Also, his remarks in Longmans of this month. I shall deliver the Playactress in time by the 31st of August. Expect it not before then. That is what Watt says he has arranged as per enclosure.

I wrote by hand yesterday, thanking you for the magnificent book (Conway) which is keeping me from work today. Ever yours. SRC.
